

MISS WILLARD IS
AGAIN ELECTEDONCE MORE CHOSEN TO LEAD
THE W. C. T. U.

Mrs. Stevens Honored With the Vice Presidency—Enthusiastic Reception Given to Miss Acherman During Which the President Applauded with Her Gavel.

CLEVELAND, Ohio, Nov. 21.—The National Woman's Christian Temperance union convention has re-elected Miss Frances E. Willard president, with Mrs. Stevens vice-president at large. There was a slightly decreased attendance at yesterday's session. Immediately after the devotional exercises Mrs. Campbell of Wisconsin gave notice that at the next annual convention she would move to amend article 4 of the constitution by the substitution of the words "vice-president at large" after the word "president." Mrs. B. Sturtevant Peel of California announced that Miss Jessie Acherman, round-the-world missionary of the union, was seated with the California delegation, and Mrs. Peel desired that she be given a seat on the platform. Miss Acherman was by vote made a member of the convention and escorted to the platform. When the escorting party reached the platform Miss Willard took a valise from Miss Acherman's hand and said, holding it up for the inspection of the audience: "This is the bag that has traveled 150,000 miles in the last seven years. Those are not the most interesting facts in regard to it. It has contained 20,000 pledges from men and 9,000 membership certificates from women all around the world."

The convention applauded vociferously, and Miss Willard rapped vigorously with her gavel, "not for order," she explained, "but for applause."

After this little jollification the reports from the Women's Temperance Publishing association were called for. The first given was that of Miss Margaret Suddith, managing editor of the W. C. T. U., and after she had finished Mrs. Katherine Lent Stevenson reported for books and leaflets. Mrs. Caroline W. Crow next reported, also for the Union Signal.

Samuel Dickey of the prohibition party spoke briefly and humorously. The annual election of officers followed. The first ballot taken was for president and resulted in the unanimous choice of Miss Frances Willard. She made a brief address of thanks for the continued confidence reposed in her by the union.

The other officers elected are: Vice-president-at-large, Mrs. L. N. Stevens; corresponding secretary, Mrs. Catherine Lent Stevenson; recording secretary, Mrs. Clara C. Hoffman; treasurer, Mrs. Helen M. Barber.

The feature of the afternoon was the exercises in memory of Mrs. Mary A. Woodbridge, late recording secretary. The evening session was devoted to the topic, "The Development of the Crusade Idea." Mrs. Anna M. Hammer, president of the Pennsylvania Woman's Christian Temperance Union, was in the chair. After devotional services addresses were made on the subject by Miss Jessie Ackermann, Mrs. L. S. Rounds of Illinois and Mrs. Chika Sakurai of Japan. A "birthday offering" of money was then taken up. Later thirty-two of the ladies, in charge of Capt. Truelove of the Salvation army and Mrs. Edholm of California went on a tour of the slums of the city, being gone until 10 o'clock.

There were forty-eight men in the mine at the time, and seven are known to be dead. Four were badly injured. The news of the disaster quickly spread and in a short time hundreds of persons crowded about the mouth of the mine. The wives and children of the miners were frantic. In a short time a rescuing party went into the mines after the bodies. When the bodies were brought to the surface many women fainted at the sight. Rubinstein was born at Weichwotynetz on the frontier of Roumania, Nov. 30, 1830. As a child he was taken to Moscow and studied the piano under Alexis Villoing. His first appearance in public was made when he was only 8 years of age. At 10 years of age Rubinstein went with his teacher to Paris, where he remained two years, his performance at several concerts winning for him the advice and encouragement of Liszt. Rubinstein next visited England, Sweden and Germany, and in Berlin he studied composition under Dehn. Having completed his course of instruction Rubinstein devoted himself for some time to teaching in Berlin, and later to teaching in Vienna. He returned to Russia later on and was appointed pianist to the Grand Duchess Helena. Subsequently he became director of the musical society. Rubinstein visited the United States in 1872-3. Among the dead composer's operas are "Dimitri Donskoi," "Les Chasseurs Siberiens," "Tom Le Fou," "Les Enfants des Bruicrs," "Lalla Rookh," "Nero" and "Ivan Kalashnikov." The jubilee of Rubinstein's public service was celebrated in St. Petersburg on Nov. 18, 1889. Since 1867 Rubinstein has held no office, spending his time in traveling and in composing. TOKIO, Nov. 21.—It is learned that the Japanese government has sent its reply to the note of United States Minister Dun asking whether a tender by the President of the United States of his good offices in the interest of restoring peace in the east would be agreeable to Japan. Before reaching a conclusion the ministry gave the matter consideration for several days, and finally stated to Mr. Dun that, although the friendly sentiments which prompted the government and people of the United States were deeply appreciated, the success of the Japanese arms had been such that China should approach Japan directly on the subject. In view of the absence of Japanese and Chinese diplomatic representatives at Peking and Tokio, respectively, this would imply that any communication between the two governments would be made through the American ministers to China and Japan, who since the outbreak of the war have had in charge the interests of the two countries.

GOES STEADILY ON.

Japanese Army in Manchuria Continues to Advance.

HONG KONG, Nov. 21.—The Japanese army in Manchuria continues its march of invasion, with scarcely a show of opposition. Chu Lien having been taken Oct. 26, the advance was resumed on the following day toward Hwong Hwong, thirty-five miles distant on the road to Moukden. This city was taken Oct. 31, and, as usual, without the necessity of heavy fighting. The garrison fled in disorder, the majority shaping their course for Moukden. It is said before running away the Chinese generals ordered that Hwong Hwong be burned, but their arrangements were not sufficiently effectual to secure destruction of the 20,000 houses which the place contained. Gen. Yamagata's reports say nothing on this subject, but with regard to the capture of arms and ammunition he is explicit. Since the opening of the Manchuria campaign he has taken fifty-five field cannon, with 20,000 rounds, and 1,500 rifles, with 2,500,000 rounds. The total number of field pieces lost by the Chinese between the end of July and the end of October is 155. Gen. Yamagata has lost no time in announcing to the inhabitants of the newly occupied territory that they have nothing to fear from the Japanese if they pursue their occupations peacefully and abstain from interference with the movements of soldiers. Consequently most of the inhabitants returned to their homes.

Reports from the province of Ragione Calabria say 300 corpses have been extricated from the ruins of houses at San Procopio. Forty-eight bodies were found beneath the ruins of the church. The number of persons injured is said to be enormous. It is estimated that the damage done to buildings at Palmi, not counting the loss in furniture destroyed, will amount to 2,000,000 lire. Fifteen buildings collapsed entirely and 300 others are irreparably damaged. Every house in the town has suffered more or less and not one remains habitable. At Palmi six persons were killed and over 300 were injured.

A BIG FIRE RAGED HERE LAST NIGHT

The Loss is Well Protected By
Insurance Policies.

HUNDREDS OF CASES OF LEAF
WERE DESTROYED.

Big Corrugated Iron Covered Building
at the Corner of Wall and Academy
Streets a Total Wreck—Blaze
Undoubtedly of Incendiary Origin
and Was Burning Fiercely When
the Alarm Was Turned in—Iron
Made it Hard to Fight.

An incendiary fire that fed on leaf
tobacco and the bone-dry cases that
it was packed in, and a tinder-like
wooden building that was coated with
corrugated iron which made it three
times as hard to fight, cost from \$25,
600 to \$30,000 last night.

The big warehouse of the Rock
County Tobacco Growers' association,
at the corner of Wall and Academy
streets was the one that was de-
stroyed and the building itself was
insured for \$3,000 with about \$20,000
in insurance on the contents.

It was about 10:30 o'clock when an
alarm came in from box fifteen. Dense
clouds of smoke were rolling across
town heavy with the odor of blazing
leaf and pine boxes. For a long time
no light could be seen, but the smoke
floated over the electric lights which
made it look twice as thick.

Suddenly there was a puff of flame
and the heavens were illuminated.
Officer Ed. Smith smelled the smoke
when he was near the Grand hotel
and had started to find out where it
came from. When the flame puffed
up Mr. Smith started to run, but be-
fore he got to the box John Schicker
and Ed Schmidley had turned in an
alarm. The department turned out
in double-quick time, but when they
got there the building was all afire.
Flames were bursting from all the
windows and it was plain to be seen
that the whole thing would go.

Cinders Rolled Up In Clouds.

Clouds of sparks were floating sky-
ward to be carried over town by the
strong gale of wind that swept the
smoke off to the southeast. Spray
was mingled with the smoke and
sparks to such an extent that it felt
like a fine rain as far down Milwaukee
street as R. B. McLean's drug store.
This undoubtedly prevented other
fires as it dampened the lumber piles
in the Lovejoy yard and the roofs of
the buildings upon which the cinders
fell. Six streams of water were soon
pouring on the blazing edifice and a
call for direct pressure was sent in.
The department had just gotten nicely
to work with good pressure when an
other alarm came in from box sixteen
at the corner of Madison and Acad-
emy streets. The fire patrol and one
of the hose companies were dispatched
to the box expecting to be called upon
to fight another blaze, but they found
that somebody who did not hear the
first alarm had pulled that box for the
fire that they had already been work-
ing on for some minutes. They then
returned and shortly after Chief En-
gineer Spencer had a 2-2 call sent in
for the limit of pressure.

Big Chimney Fell.

Inch by inch the fire gained and
through the windows the cases could
be seen blazing fiercely. Every once
in a while the wind would tear off a
sheet of corrugated iron and whirl it
away into the clouds of smoke to be
carried a few feet by the wind and
then fall with a crash. In the east
end a large brick chimney had been
built which reached from the founda-
tion to the very point of the gable
of the three story building. One by
one the supports of the tall columns
of masonry were burned away, while
smoke poured from the top of it at
least fifty feet above the earth, as
merrily as if there was a good pine
fire in the stove below. From both
sides of the chimney hung long strips
of corrugated iron that had hung by
the ends when the roof burned from
beneath. The wind flapped these big
pieces around like stockings on a
clothes line and the intense heat had
made them a cherry red in spots. One
fell and then the other and the blaze
steadily ate away the building on all
sides. The north side of the end in
which the chimney was built had
burned nearly to the ground and on
the south side but a single rafter held
it in place. Then this too burned
away and with a heavy crash the tall
chimney fell breaking the bricks into
small pieces. Four men had been
working with a stream at the very
point where most of the chimney
landed but a short time before, but
fearing danger they had been ordered
to the Wall street side of the blazing
edifice.

Rains Smoked Sullenly.

Little by little the fire ate its way
down and until the blaze was so low
down that cinders ceased to fly so
thick and fell within a smaller radius
which made many people feel relieved.
Foot by foot the department closed in
on the blaze and at 3:30 o'clock it was
under control. Blackened and
charred ruins that smoldered sullen-
ly; great sheets of the iron sheeting
that had been twisted, bent and dis-
colored by the heat; masses of partial-
ly burned tobacco and a long line of
irregular masses of broken brick that
marked the place where the chimney
fell were all that remained of the
building. Clouds of steam from the
deluge of water that was kept pouring
on the red hot ruins and columns of
dense smoke were still wafted about

by the breeze when the fire out signal
was struck and the department was
split up into squads. One force of
men were kept at work while another
returned to their quarters for needed
rest. Until four o'clock the battle
was kept up and water was still being
thrown this morning. Six hours
work had fairly flooded the vicinity,
the water pouring down the gutters
in streams that promised skating
for the small boy. It was a lucky fire
for had the wind been blowing the
other way nothing could have saved
the hotels of O. E. Smith and Adam
Holt, while Fifield Brothers lumber
yard would have been in great dan-
ger.

THE BLAZE A HARD ONE TO FIGHT.
The Corrugated Iron Protected the Blaze
On the Inside.

Seldom do the dremen have to com-
pete with a more difficult blaze to
battle with than this was. The build-
ing was a three story frame edifice and
the roof and sides were covered with
sheets of heavy corrugated iron that
was nailed on in long strips about two
feet wide with overlapping edges.
The blaze, when the department
reached the scene was chiefly in the
upper part although it was pretty well
started all over. Spots on the iron
plates that were a deep cherry red
showed where the blaze raged a little
fiercer than in other places. When a
stream that would knock a man end
over end struck the iron a cloud of
steam would rise and the iron would
warp and grow black only to heat up
again the instant the stream would
be moved. Great sheets of heated
metal swayed about in the wind and
threatened the lives of the firemen
who were venturesome, and compelled
them to fight the blaze from a dis-
tance. Every few minutes a piece
would be wrrenched loose and fall, one
immense sheet tumbling into the pond
of water that had formed in a depres-
sion in the street where it sizzled and
steamed until the cold water cooled it.
Others fell on the turf in the vac-
ant lot east of the building while
sheets of it still hung to sway in the
wind and be buffeted about by the
streams of water. Thus the firemen
could keep the outside cooled off
while inside the building the blaze
danced and leaped skyward despite
the floods that were poured upon it.

Cases Piled Up High.

Added to the difficulties that the
fire-fighters had to deal with in the
shape of iron, was the arrangement of
the goods inside the building. The
solid cases of tobacco, that had lain
in the warehouse until they were dry
as tinder, were piled in regular courses
close up to nearly all the windows
and doors. They blazed fiercely, ow-
ing to their inflammable nature, and
prevented the firemen from entering.
Not one stream could be gotten into
the edifice where the fire raged the
fiercest. If they could, it would not
have been so bad, for the firemen
could then have poured the deluge
of water where it would have
extinguished the living fire instead of
wasting in cooling hot iron and occa-
sionally getting a few gallons past the
metal barriers only to be converted
into steam almost before it had
reached the blaze at all. Finally,
after little remained but the lower
story and that was simply a shell, the
firemen on the Wall street side of the
big fire succeeding in knocking in one
of the doors and getting a heavy
stream inside. The piles of cases that
had barred their way before were
burned down to irregular piles, of blaz-
ing rubbish and the solid stream be-
gan to tell. A great cloud of murky
smoke told plainly as words that the
flood was having its effect. When the
cases burned down and the iron be-
gan to peel off the firemen got a
"show for their white alloy" and then
they made every minute count. At
2 o'clock a six inch water main at the
corner of Ravine and Terrace streets
broke and caused the water company
a good deal of trouble before it was
stopped.

LOSS PROTECTED BY INSURANCE.
The Tobacco and Building Both Nearly
Covered by Policies.

The loss incurred by the blaze will
not fall short of \$25,000 or \$30,000.
In the building was stored in the
neighborhood of one thousand cases of
tobacco, which was owned by farmers
all over Rock county. The leaf was
covered by an insurance of about \$20,
000, which will probably cover the
most of the loss.

The building was originally built by
Hopkins & Son, who at the time were
importers of heavy horses, and was
very substantially constructed. When
the firm went out of business the
building stood idle for some time, and
was then secured by the Tobacco
Growers' Association. It was owned
by A. L. Fisher, William Crow and
John F. Spoon, and was insured, Mr.
Spoon said, last night, for about
\$3,000. Nothing was saved except a
few books that were lying loose in the
office, a pair of scales and a table,
which were turned over to the Fire
Police to look after.

The Rock County Tobacco Growers'
Association was incorporated in 1890,
with a capital stock of \$5,000. The
president was Henry Tarrant, of La
Prairie; secretary, A. L. Fisher,
and treasurer, B. D. Wixom. The
association is composed of farmers
from all parts of the county, and the
business was run on the cooperative
plan.

S. B. HEDDLES GETS THE SALVAGE.
He Has a Force of Men at Work in the
Ruins.

S. B. Heddles has taken charge of
the salvage in the ruins for the pur-
pose of saving as much of the stock as
possible. He has a force of men at
work removing the partly burned and
wet tobacco, while a detail of the fire

department is kept on the scene to
put out the smoldering ruins as the
workmen remove the tobacco. It is
not expected that the fire will be ex-
tinguished for several hours to come,
as there is much work to be done in
order to get at it.

EVANSVILLE ROOMS RAIDED.

Emmett Kelly and Andrew Barton Are
Charged with Liquor Selling.

EVANSVILLE, Nov. 20.—Emmett
Kelly, proprietor of a temperance
billiard and pool hall in this place, was
arrested yesterday, on charge of hav-
ing sold spirituous and malt liquors,
contrary to the laws of the state. Mr.
Kelly gave bonds for appearance on
Thursday next. Andrew Barton,
whose lunch counter is situated near
the Evansville river, was also taken
charge of by Marshal Brink and held
to answer the same violation of law
that was charged to Kelly. A num-
ber of witnesses were examined and
while some were so child like and in-
nocent that they were unable to tell
the difference between cider
and lager and were equally at sea as
to bourbon and ginger ale, yet there
were several impeachable witnesses
who swore that they called for in-
toxicants and willingly and knowingly
drank the aforesaid.

Surprise Party at Afton.

AFTON, Nov. 20.—A house full of
friends and neighbors took possession
of C. H. Smith's residence last Wed-
nesday evening, and proceeded to en-
joy themselves. They had not sent
word of their coming, but were never-
theless warmly received by the sur-
prised host and hostess. Before de-
parting, Frank P. Starr, in a few well
chosen words presented Mr. and Mrs.
Smith with a nice rocking chair as a
token of their esteem. A load of
Janesville people helped to swell the
throng present. Mr. Smith and fam-
ily will soon move to Janesville. The
wide-awake members of Afton Lodge
No. 182 I. O. G. T. will give an oyster
supper at the Baptist church on Wed-

LANG RAISED \$100 AND THEN SKIPPED.

A SMOOTH SWINDLER MADE A
GOOD HAUL.

He Represented that He Was Selling
Malt and Got L. F. Knipp to En-
dorse a Draft For that Amount
Which Was Returned as Worthless
By the Firm.

L. F. Knipp of the L. F. Knipp Brew-
ery Co. is out \$100 and A. Lang, an
oilly sharper from somewhere where
they raise sharks, is in that amount.
Perhaps Lang will also be in jail
too, before he gets through, but he
isn't there yet.

Lang called at the brewing com-
pany's office and presented the busi-
ness card of a malting firm at Ha-
vana, Ill., representing that he was
traveling for them. He was an oily
sort of a chap and appeared to know
about the malting and brewing busi-
ness and Mr. Knipp did not suspect
that anything was wrong. Lang
claimed to be out of money and told
Mr. Knipp that he wanted to draw on
the house for \$100 and as he was a
stranger in town he asked Mr. Knipp
to endorse a draft for that amount.
This Mr. Knipp, who is always ready
to accommodate an acquaintance or
friend, did and Lang departed with
profuse thanks. The draft was sent
to Havana and returned as worthless
yesterday afternoon, so Mr. Knipp
turned the matter over to the police.
A telegram was sent to Havana ask-
ing the firm about Lang and they re-
plied that he was not known to them.
"We may get him yet" was Officer
Hogan's comment last night but Lang
has had time to put a good deal of
distance between himself and the mil-
lions of the law.

BLIND BOY PLAYED VERY WELL.

A Pupil of The State School Complimented
at Milwaukee.

A little blind boy entertained the
guests at the Davidson hotel last even-
ing by playing beautifully at the
piano, says the Milwaukee Sentinel.
He attracted considerable attention
on account of playing so well in spite
of the absence of sight. He is a son
of J. W. Cochran, a well-known law-
yer of Centralia, and was on his way
home from Janesville with his father.
Mr. Cochran has two boys, both of
them blind, and they attend the insti-
tute at Janesville.

Attended and a Success.

Sunday morning the Sunday school
workers from the different parts of
the townships of Janesville and Ful-
ton reached the U. B. church, filled
with love for the Master and a desire
to work in his moral vineyard.
The program was carried out in full
to an attentive audience who re-
mained till twilight, eager to hear the
closing message from above handed
down to all by one of the Masters' best
Servants, Rev. Powell of Fulton.

EXCESS BAGGAGE GOES CHEAPER

Restoration of the Rates in Effect Prior to
the First of November.

Commercial men and travelers gen-
erally who have been given the chance
to feel the effect of an advance in
rates for excess baggage since Novem-
ber 1 will be gratified to learn that
they will no longer be compelled to
pay more than the old rate. Agents
of the Chicago & Northwestern road
have been notified by W. A. Thrall,
general passenger and ticket agent,
announcing a return on the tariff en-
forced prior to November 1. That the
rate for every 100 pounds under the
old agreement was 12½ per cent. of the
fare for excess baggage. Since
November 1 it has been 17 and seven-
tenths per cent., and this means much
to merchants, who will rejoice at the
reduction in drummers' expense bills.

The "Man-Eater."

Lower California is the home of a species of lizard which appears to be at least a second cousin to the famed "Gila monster." It is of a mottled yellow and brown color and about fifteen inches long. The natives of that region have given it the terrible name of "Man-eater," because it has a habit of attacking every human being it sees—going at them open-mouthed—but it does not appear to mind either wild or domestic animals. The man-eater's body is almost as brittle as that of the mythical "joint-snake."

You Deserve a Good Shaking.

And chills and fever will give it if you don't take defensive measures to escape the periodic scourge in a region where it is prevalent. The best safeguard and remedy is Hostetter's Stomach Bitters, which is free from any objections applicable to quinine, and is infinitely more effective. Wherever on this continent and in the tropics malarial complaints are virulent and general, the Bitters is the recognized specific and preventive. It does not irritate, but eradicates chills and fever, bilious remittent, dizziness and ague, rheumatism, inactivity of the kidneys and bladder, for constipation, biliousness and nerve inquietude. It is the greatest remedy, and the unsolicited testimony in its behalf of eminent medical men leave no reasonable doubt that it is one of the most reliable family medicines in existence. Use it continually, and by fits and starts.

THROWING OUT HINTS.

John Was Rather too Urgent and Personal to Be Successful.

When a Georgia father found out that his son John was sparking a certain farmer's daughter for a year or more without settling any question, he called him out behind the stack and said to him:

"John, do you love Susan Tinker?"

"I guess I do, dad."

"And does she love you?"

"That's what I dunno, and I'm 'fraid to ask her."

"Well, you'd better throw out a few hints to-night and find out. It's no use wearing out boot leather unless you are going to marry her."

That night at 10 o'clock John was a wreck. His face was all scratched up, his ear was bleeding, his hat was gone and his back was covered with mud.

"John! John! What on airth is the matter!" exclaimed the old man, laying down his paper.

"Bin over to Tinker's," was the reply.

"And—and—"

"And I threw out a few hints to Susan."

"What kind o' hints?"

"Why, I told her I'd been hoofing it two miles four nights out of a week for the last year to set up with her while she chewed gum and sung through her nose, and now I reckoned it was time for her to brush her teeth and darn up her stockings, cure the bile on her chin and tell the old folks that we're engaged."

"And her father bounced you?"

"No, dad, no; that's where I'm consoled. It took the whole gasted family, including Susan, two hired men and three dogs, and then I wasn't more'n half licked. I guess we moved on 'em too soon, dad—I guess it wasn't quite time to throw out hints."

Lost to Science.

The late Professor Hyrtl once at an examination asked the following question: "What can you tell me of the functions of the spleen?" The student, not wishing to confess his ignorance, replied hesitatingly: "I used to know, but it has unfortunately escaped me." "Unhappy man!" said Hyrtl; "you are the only one who ever knew anything about it, and you have forgotten it."

The New

Horsford's Baking Powder excels all others in healthful quality and baking strength. A wonderful invention.

"What a Lovely Complexion!"

"Isn't her complexion charming!" These are expressions we hear every day, made by women in reference to others, which reveal a pardonable envy, and one which can be gratified.

The secret of good health, as indicated by a rich color, and well-rounded figure, is found in a good digestion.

Shopping tours, dances and entertainments indulged in, will leave you utterly fagged out, unless you are obtaining all the value from your food; and it is so easy to accom-

plish this that you will wonder no one has spoken to you of it before.

Try with each meal, and at bed-time, a wineglassful or more of the **Genuine Johann Hoff's Malt Extract**, which you will find to be most acceptable to the palate as a beverage, and will lift you right on to the plane of the vivacious and trim-figured sister you admire so much, and who seems capable of enduring endless fatigue.

Then, again, we must remember the nursing mother, where two lives are dependent upon the proper nourishing of the one. Surely nothing can be more valuable to the mother, nor give more comfort to the baby, by producing a generous flow of milk, than the

GENUINE JOHANN HOFF'S MALT EXTRACT.

Defective nutrition is the foundation of all ailments. A healthy, well-nourished body can withstand almost any disease. There is resistance power in such a body.

I have been taking the **Genuine Johann Hoff's Malt Extract** myself for a year or so, and find it an excellent tonic and appetizer. Without doubt it is the best Malt Extract in the market.

DEMORALIZATION.

It will be seen by the following communication that the president and Secretary Carlisle will be called to account when congress convenes next month. Dissatisfaction in democratic ranks is not confined to the south, but there are many prominent members of the party in the north who not only question the policy of the authority assumed by the president and his secretary of state in the bond issue, but are also free in condemning the foreign policy adopted in relation to the Chinese question.

They claim that important legislation belongs to congress, and the usurping of power on the part of the executive is not regarded with favor.

The next session of congress is likely to be a little stormy to say the least.

WASHINGTON, Nov. 17.—Some of the southern democratic congressmen who have returned to the city, express their dissatisfaction with the new bond issue. Not only are they obviously opposed to the policy of the administration in this matter, but they intimate that they propose to call it up in congress and make trouble if possible.

General Hooker, of Mississippi, is among these democratic members. "This issue of bonds," he said today, "is a defiance of congress, and it seems to have been intended for such. There is nothing in the financial situation or in the condition of the treasury department which made it necessary for the president to negotiate this loan before the representatives of the people could assemble, and there would seem to be every reason why the representatives of the people should be consulted about the matter. The fair conclusion would appear to be that the president feared that his policy would be disapproved if submitted to congress, and he desired to assume this authority for himself at a time when he could not be interfered with."

In this view of the matter General Hooker, Mr. Bailey of Texas, and some other dissatisfied democrats may be expected to stir up a row over the bond question as soon as congress meets, and there is little doubt that the republicans will embrace the opportunity to contribute to the disturbance. Secretary Carlisle, it is said, was very reluctant to have the card issued under the resumption act of 1875, which was done last February. He would have much preferred explicit authority from congress in a new statute. The limitations upon the use of the gold obtained from the bonds under the resumption act are such that the gold can only be used to maintain the parity between paper currency and gold and silver. Gold so obtained it is held, cannot be lawfully used for current expenses.

Five Years Ago This Month

We began our operations and advertising in this city. It is not too much to say that today there are five good homes here where there was one good home before. We mean by this five homes with modern improvements, where one with such improvement was before we came. What influence our work for five years has had on this state of things you who read may judge.

We began our business in Riverview park; we gave lot buyers in that addition what they never had gotten anywhere else in Janesville. We gave them the best of streets, a beautiful park, artesian water to every lot, good lights, cheap and reliable transportation, our "Bus," and in short all modern improvements. The homes sprang up in that section as by magic. Old fogies visited us and sympathized with us. Croakers sat around on fences and the railings of the bridges, expected tobacco juice and predicted failure and all dire results. Riverview park grew and grew and continued to grow, till lots that we offered at \$200 to \$300 each have sold the past year, the dullest of dull years, at \$1,000 to \$1,500 each, and nearly every lot there is sold. Our business, now, "Glen El" followed "Riverview." Other additions followed that, still up to date we have planned over

five hundred acres of the best lots in Janesville and have marketed a fair proportion of them.

In our Riverview Park deal no sooner had we begun to offer lots, homesites, there than our friend, the enemy, began by saying there is no water there and wells will cost so much to sink the water there that the lots are worthless. It is a fact that one of the daily papers in this city made that statement in print. We put in \$900 worth of private water mains before May 1st the next year 1890. Next the cry was, "dark, oh! horribly dark is Riverview Park" and that became a battle cry of the croakers who didn't dare do any business themselves nor wanted to let any one else do any. Electric lights at our expense went in and were burned at our expense for years. Three years of the five we have been in the city we have paid out between \$1200 to \$1500 per year for street lights. We are not doing much in that line just now but dare do it again. Water and lights were in, what else did the croakers see that Riverview Park lacked? One day one or two of them undertook to walk out there and as the were no saloons on the way in which to rest, one of them died from over fatigue and then the cry went up, it is so far to Riverview Park that you have to start the day before to get home to dinner the following week. Water was good they said in its place, lights were nice in the heat of the city, but way out there they were no good—a man could not get there unless he hired a carriage at an expense of fifty cents and then he would get tired before he reached there. No matter that half the people then in Janesville lived twice as far from the post office as those who lived in Riverview park did; to go up there if you walked would be fatal, for hadn't a dry croaker reported that his friend did die on the road? Water mains had not scared us, lights were within our reach but "no cars" ran to Riverview park and never would run anywhere near there, while to two other sections of the city mule cars did run. This seemed to these people to settle it. One morning we started our "Bus," a better, prompter, cleaner, faster and cheaper conveyance than the city had ever had anywhere. We ran that "Bus" until we had paid the electric road a bonus to go down South Main street and thus brought Riverview park, any part of it within from three to eight minutes of the Myers house corner. Riverview park speaks for itself, we don't need to eulogize. It has today the best class of citizens and the most of them of any equal area in any part of the city that is not over four times as old. It is today the cream of the residence portion of Janesville. Just after the last presidential election we platted East Riverview Park. We put in that winter and the following spring, water mains, over \$2000 worth of them. We built streets, beautiful bridges and other improvements and offered lots then at \$400 each. There were there and are not now any lots in Janesville at \$500, \$600 or \$700, that are as desirable as these East Riverview Park homesites. Nearly all of them are within a mile of the postoffice, none of them are over a mile and one-eighth. They overlook the city and country, and are every way desirable. The only thing these same old croakers have been able to say, is that they are too far away and have no way to ride down from them. We are five years older, five times better known than we were in 1889, November, when we made our debut here. We have about five times the faith in the future of Janesville that we had in November, 1889. We are going to put East Riverview Park lots within 7 to 10 minutes of the postoffice. Within three and a half cents of the best of things and we are going to do it quick, but that is another story. We are the same as ever, Yours Very Truly,

GEO. L. & SARAH H. CARRINGTON.

Elevated Railroad Engine Explodes.

CHICAGO, Nov. 21.—Engine No. 16, pulling a south bound train on the Alley L road, blew out its crown sheet last evening. The explosion jarred all the houses in the neighborhood, caused a stampede among the passengers, who crowded the front cars of the train, and started a frightful series of rumors of many mangled and killed. Only the fireman was injured, however, though the passengers had a narrow escape.

Mr. Barson has two brothers and one sister residing in Janesville, William and Henry Hemming, and Mrs. Wilbur.

A GOOD sized audience saw "The Dazzler," one of the best comedies ever seen in the city, at the Myers Grand last night and all enjoyed the performance fully. There was not a poor member in the company and the specialty and vocal features were of a very high order. It was a very funny performance and if they ever come back the opera house won't be big enough to hold the crowd.

THE Growers association are now short a meeting place. The annual meeting will be held on Friday, November 23. The association last week adjourned to convene at that time, the warehouse being named as the place, but the fire last night will make it necessary to gather at some other place.

FLOODS OF WATER USED LAST NIGHT

636,051 GALLONS WERE PUMPED OUT IN SEVEN HOURS.

Big Engine Made 13,533 Strokes and Furnished Better Service By Far than Ever Before—Every Call Made Was Answered With More Pressure.

Do you know how much water was pumped into the warehouse fire last night?

You don't? Just 636,051 gallons.

The engines at the pumping station made 13,533 strokes between the hours of 11:05 o'clock and 6:30 o'clock this morning, and during the same time pumped that amount of water. The pressure at the station at 11:05 p. m. was 100 pounds; at 11:10 o'clock in answer to the second signal for direct pressure, there was 120 pounds; at 11:20 the third signal was given, and was answered with 130 pounds, which was steadily maintained with six streams until 1 o'clock, when the water main broke on Ravine street.

Each call for additional pressure was promptly responded to, and the service was by far the best ever given. Engineer Putnam started both his pumps at the second call. As soon as the water main broke Superintendent Mitchell notified Chief Spencer and sent men out looking for the break. The chief's horse and buggy and one of the hose teams being placed at his disposal. While the men were out the pressure dropped down below one hundred pounds, but the fire was under control and as soon as the break was cut out the maximum pressure was restored.

CAN SELL STANDING ROOM.

The Older the Sale the Greater the Crowd.

The name of Lowell is similar in every respect to that of the late Barnum. Wherever Lowell opens up for business the people rush to him with business. He has built up a reputation as a promoter of low prices, that will live as long as the town stands. Many shook their heads when he bought the Holloway & Johnson stock, said he was going too far, but Lowell needs the advice of none of these croakers. He can advise them. When he took hold of this stock, he figured that he would close it out by December 1, but it will all be gone long ere that. The crowd increases every day, it is an utter impossibility to wait on the people. More people have been in that store room within the last ten days than were there during an entire year before. The sale will last but eight days longer. Frank Baack has rented it to put in a big stock of clothing and Lowell must get out. It will pay you to borrow money and buy that hardware and stoves, the chances are that such low prices will never again be known in Janesville, and if you heed not this entreaty you will in after years think about it and kick yourself because you missed the opportunity of a lifetime. A. L. FISHER MAKES AN ASSIGNMENT

Turns Over All His Property Not Exempt For Personal Obligations.

Secretary A. L. Fisher, of the Tobacco Growers' Association, made a personal assignment to-day for the benefit of his personal creditors, naming Grant U. Fisher as the assignee. The papers set forth that Mr. Fisher acknowledges indebtedness to divers people for divers sums, which he is unable to pay, and he turns over all his property not exempt by law, to the assignee, who has qualified with \$4,500 bonds signed by James Cleland.

Fur Sale Extraordinary!

A New York manufacturer wanted money. Now he's got it, and we have the furs. There have been fur sales, openings and the like, at which you could select garments at high retail prices, for the reason that the houses making the sales did not own the stock and were not in position to make prices on goods that were simply loaned to them; but you know our record in bargain giving well enough to know that when we make a special sale we have something to back it up, and in this instance we will say that every garment we show belongs to us and was bought with spot cash. Emphatically, this is the largest deal ever made in Janesville in high class furs. On sale today—Capes, Jackets, mantles, muffs, boas, scarfs, seal, mink, martin, beaver, monkey, astrakhan, as well as the inexpensive furs. Ladies at all interested in a fur garment should see this display. Come in, anyway. We will be glad to show you. It's a chance of a season, yes, of a dozen seasons.

ARCHIE REID & Co.

Living Pictures.

Never in the history of the world was as fine clothing made as the Pickwick. It is the result of years of study, and is so adapted as to fit any sized boy or man, long or short, slim or stout, and the beauty of it all is, it does not cost any more than the common, ready made clothing. We can sell you a Pickwick suit, and a Pickwick overcoat for \$20, that will fit as good as any tailor made suit and overcoat in the city that will cost you \$70, and the material is equal on both sides. Pickwick clothing is the terror of high priced merchant tailors. We have also inferior grades of ready-made, but also very cheap: for instance, we can sell you a good, heavy suit and overcoat for \$8, same as will cost you \$22 in any other clothing store in Janesville. We are actually selling many articles of clothing for thirty cents on the dollar. See living pictures on 8th page.

T. J. ZIEGLER.

The Same Thing Over Again.

Perhaps you are growing tired reading about our great cash and credit sale, we have told you about it in so many different ways that it seems to you should understand what we mean. Hundreds and hundreds know what we mean, for some have come thirty miles to take advantage of it. We make just as low a price on credit as we do for cash. We have a very large stock of furniture and we propose to get rid of it. We are giving you a chance to furnish your homes and pay for the furniture with your pin money. We belong to no high priced trust. FRANK D. KIMBALL.

Cloaks, Cloaks.

This is the time of year when a cloak is very essential. Friday, November 23 we will have a cloak opening, the last of the season. A representative of one of the leading cloak manufacturers in the world will be here with as handsome a line as has ever spread out to look at. All styles and prices, delivery can be made immediately and as the cloaks will be direct from the factory, you will not have to pay a middleman's profit for handling. We will sell cloaks cheaper next Friday than any house in the city has paid wholesale.

BORT, BAILEY & Co.

Best Canned Goods.

The last two days have been exceedingly busy ones for us. We received almost a car load of Curtice Bros. canned fruit and vegetables, they are superior to all others in the U. S. We have been busy delivering them, piles of orders. Those who wish something real nice in this line can save at least 15 per cent. to leave their order now while this delivery is being made. By buying so much we received them cheap, and can save you money. No one in the city can furnish this class of goods for less than 15 per cent. more. GRUBB BROS.

Attention Ladies.

Christmas will be here in five weeks and we call your attention to the fact that a nice warm overcoat or suit would be an acceptable present for your husband. We save all patterns in our merchant tailoring and if your husband had his measure taken for a suit with us, of whom there are hundreds in the city, we can make him a garment without remeasuring. All you need to do is to call at the store, select the cloth and we will make the garment and guarantee a perfect fit. J. WEISEND, Leading Tailor, 21 W. Milwaukee St.

HOWE'S DEATH MAY FREE JACK DORSEY

HIS CASE PENDING WILL PROBABLY BE DROPPED.

Larceny From the Person Was the Charge Made but the Veteran Soldier Whom it Was Charged that Jack Robbed During the Encampment is Dead.

Patrick Dorsey of Janesville, probably read the Milwaukee Sentinel with a good deal of interest yesterday. Tucked away in an obscure corner was the following dispatch from Marinette:

"Alonzo Howe of this city, died suddenly at Hampshire, Ill., where he had gone for a visit at his boyhood home. The information of his death was contained in a telegram to his brother-in-law, Amos Holgate. Mr. Howe was fifty-two years old and lived in Marinette eighteen years. He served during the war in the Fifth Wisconsin regiment."

It is an uncanny suggestion, one man exulting over another's death, but this perhaps means liberty to Dorsey. During the Grand Army Encampment here Dorsey was arrested for "holding up" Mr. Howe and was held for trial in the municipal court on the charge of larceny from the person. He took an appeal to the circuit court and the case is now on the criminal calendar. Dorsey is out on bail and returned to Janesville some days ago. As Mr. Howe was the only witness in the case it will probably have to be dropped. District Attorney Wheeler was out of town today and therefore could not be seen in relation to the matter.

This Pays.

It pays everyone to follow the thousands who have accepted that remarkable free offer of Dr. Greene, of 35 West 14th St., New York City, the most successful specialist in curing nervous and chronic diseases. He has established a system of free letter correspondence, to tell the sick and suffering everywhere just what their trouble is, and how to get well. All you need do is to write him a letter, telling him your symptoms and how you feel. He will answer it, explaining your case minutely and giving all possible information. And for all this he charges nothing. It is the best opportunity you ever had to consult the highest authority, without leaving your home and without paying any fee.

He gives such careful attention to every letter, that you understand instantly just what ails you. He makes a specialty of treating patients through letter correspondence, and is having wonderful success by this method. It was this same successful physician who discovered that remarkable medicine, Dr. Greene's Nervura blood and nerve remedy. The doctor's long experience and tremendous practice, enables him to thoroughly understand your complaint by writing him your symptoms. It is easy enough to try it, and it won't cost you anything. Write him today and it will probably be the means of your getting strong and well.

Another F. F.

Captain Patrick Dugan, one of the best known shoe salesmen in the state, is in our employ. His ten years as a seller of shoes gave him only a practical knowledge of shoes still, the scientific principles of foot fitting was only fully understood after taking many lessons from that eminent expert, Dr. Lincoln. Mr. Dugan will soon graduate and then one more "foot fitter" will be launched on the already tired out people. His office will be with Brown Bros. & Lincoln.

HE STRUCK A CHILL.

The Editor "as Not in a Poetic Mood at the Time."

"I've got a humorous little fancy here," said the smiling young man who had just come in, as he drew up a chair confidentially, sat down and laid on the desk a scrap of paper containing these lines:

"For children have oft been carried away by gyps that pass in the night."
"What's this for?" inquired the toiler at the desk.

"Why, don't you see?" said the smiling caller, "it's an unfinished quatrain, or rather the final part of the quatrain that lacks the first two lines. You can furnish the appropriate rhymes yourself. It's your line of business, you know. Something about history repeating itself—parents, you know, carried away, or something of that kind, and 'that's right,' or 'mild affright,' and—"

"But what does it all mean? What are you talking about?"
"Don't you catch on?" The little play in words, you know—"

"What words?"
"Carried away' and 'gyps that pass in the night—"

"Pass where?"
"Don't you get the idea? You've read the book haven't you?"
"What book?"

"Say, do you mean to tell me that you've never read 'Ships That—'"
"Look here, my friend," interposed the man at the desk, firmly, "if you are trying to work into this paper a favorable mention of some book or other, you've come to the wrong department."

"But—"

"There's no use in talking. You've got to carry that to the advertising counter. You can't get in my part of the sheet for \$5 a line."

The caller rose up, grasped the scrap of paper, crumpled it in his hand and threw it fiercely on the floor.

"And they pay you for writing stuff for this paper, do they, sir?" he hissed, as he pulled up his coat collar, giving the toiling scribe a stare of measureless contempt and bolted angrily from the room.

A Dutch Co-operative Plan.
Agneta Park, near Delft, in Holland, is the result of an interesting experiment in co-operation. A tract of ten acres has upon it 150 houses, each with its little garden and with certain common buildings and common grounds. The houses are occupied by the employees of a great distilling company, who form a corporation which owns the park. Each member owns shares in the corporation and pays rent for his house; the surplus after expenses are paid come back to him as dividends. If he wishes to go away or dies his shares are bought up by the corporation and sold to the man who takes his place.

A Youthful Anarchist's Experiment.
Near Milan recently the laborers on the estate of a rich proprietor named Maidrove up to his house with the harvested corn. They were met by his son, a youth of twenty-three, who made them a speech, telling them that the grain they had sown and cut was theirs by natural right, and bidding them take it home and shout, "Long live anarchy!" After some pressure they obeyed, and on the father's return the help of the police was required to make them give up the corn again. The son thought it prudent to leave the country.
